

WITH SHE-QUICK SENSOR CHANGING
IN NO TIME AT ALL!

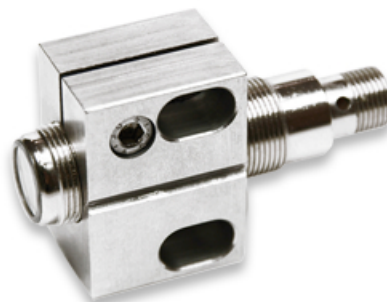

■ Using the new sensor mount SHE-Quick by techno-plast puts an end to time-consuming adjusting of sensors, inductive proximity switches, photo sensors and similar devices.

Unlike the until now known multipart gripper clamps or clamping blocks, our sensor mount SHE-Quick is made of one compact corrosion-resistant part.

Thus the position of the mount remains when changing the sensor. Merely the locking screw of SHE-Quick needs unscrewing and fastening again, after changing of the sensor.

Unscrew the locking screw, change the sensor, fasten the lock screw, done!

■ No matter which type you are using, SHE-Quick 18 mm, 12 mm and 8 mm, you have always the advantage of fast sensor changing, without the need of readjusting the position again. Thus downtimes and costs for equipment, machineries and staff are reduced significantly.

| Item | Part No. | Diameter | Width | Height | Depth | Clamping Screw |
|----------------|-------------|----------|-------|---------|-------|----------------|
| 1 SHE-Quick 18 | 56 30 39 18 | 18 mm | 40 mm | 24,0 mm | 30 mm | M5 |
| 2 SHE-Quick 12 | 56 30 39 12 | 12 mm | 40 mm | 18,3 mm | 30 mm | M5 |
| 3 SHE-Quick 8 | 56 30 39 08 | 8 mm | 20 mm | 12,0 mm | 16 mm | M3 |
